

REFOX FM40

Desktop Multi-function Laminating Machine

REFOX FM40

REFOX FM40 is an upgraded desktop laminating machine designed to simplify the entire refurbishment process. The FM40 combines five essential functions, including an air compressor, vacuum, separating machine, laminating machine, and bubble remover. With an expanded top space and powerful suction capabilities, this machine can separate flat screens up to 12.9 inches in size. Its enhanced built-in air compressor and vacuum ensure accurate lamination of both curved and flat screens. The one-press lamination and bubble removal feature saves time and reduces downtime, making it the ultimate choice for mobile device refurbishment.

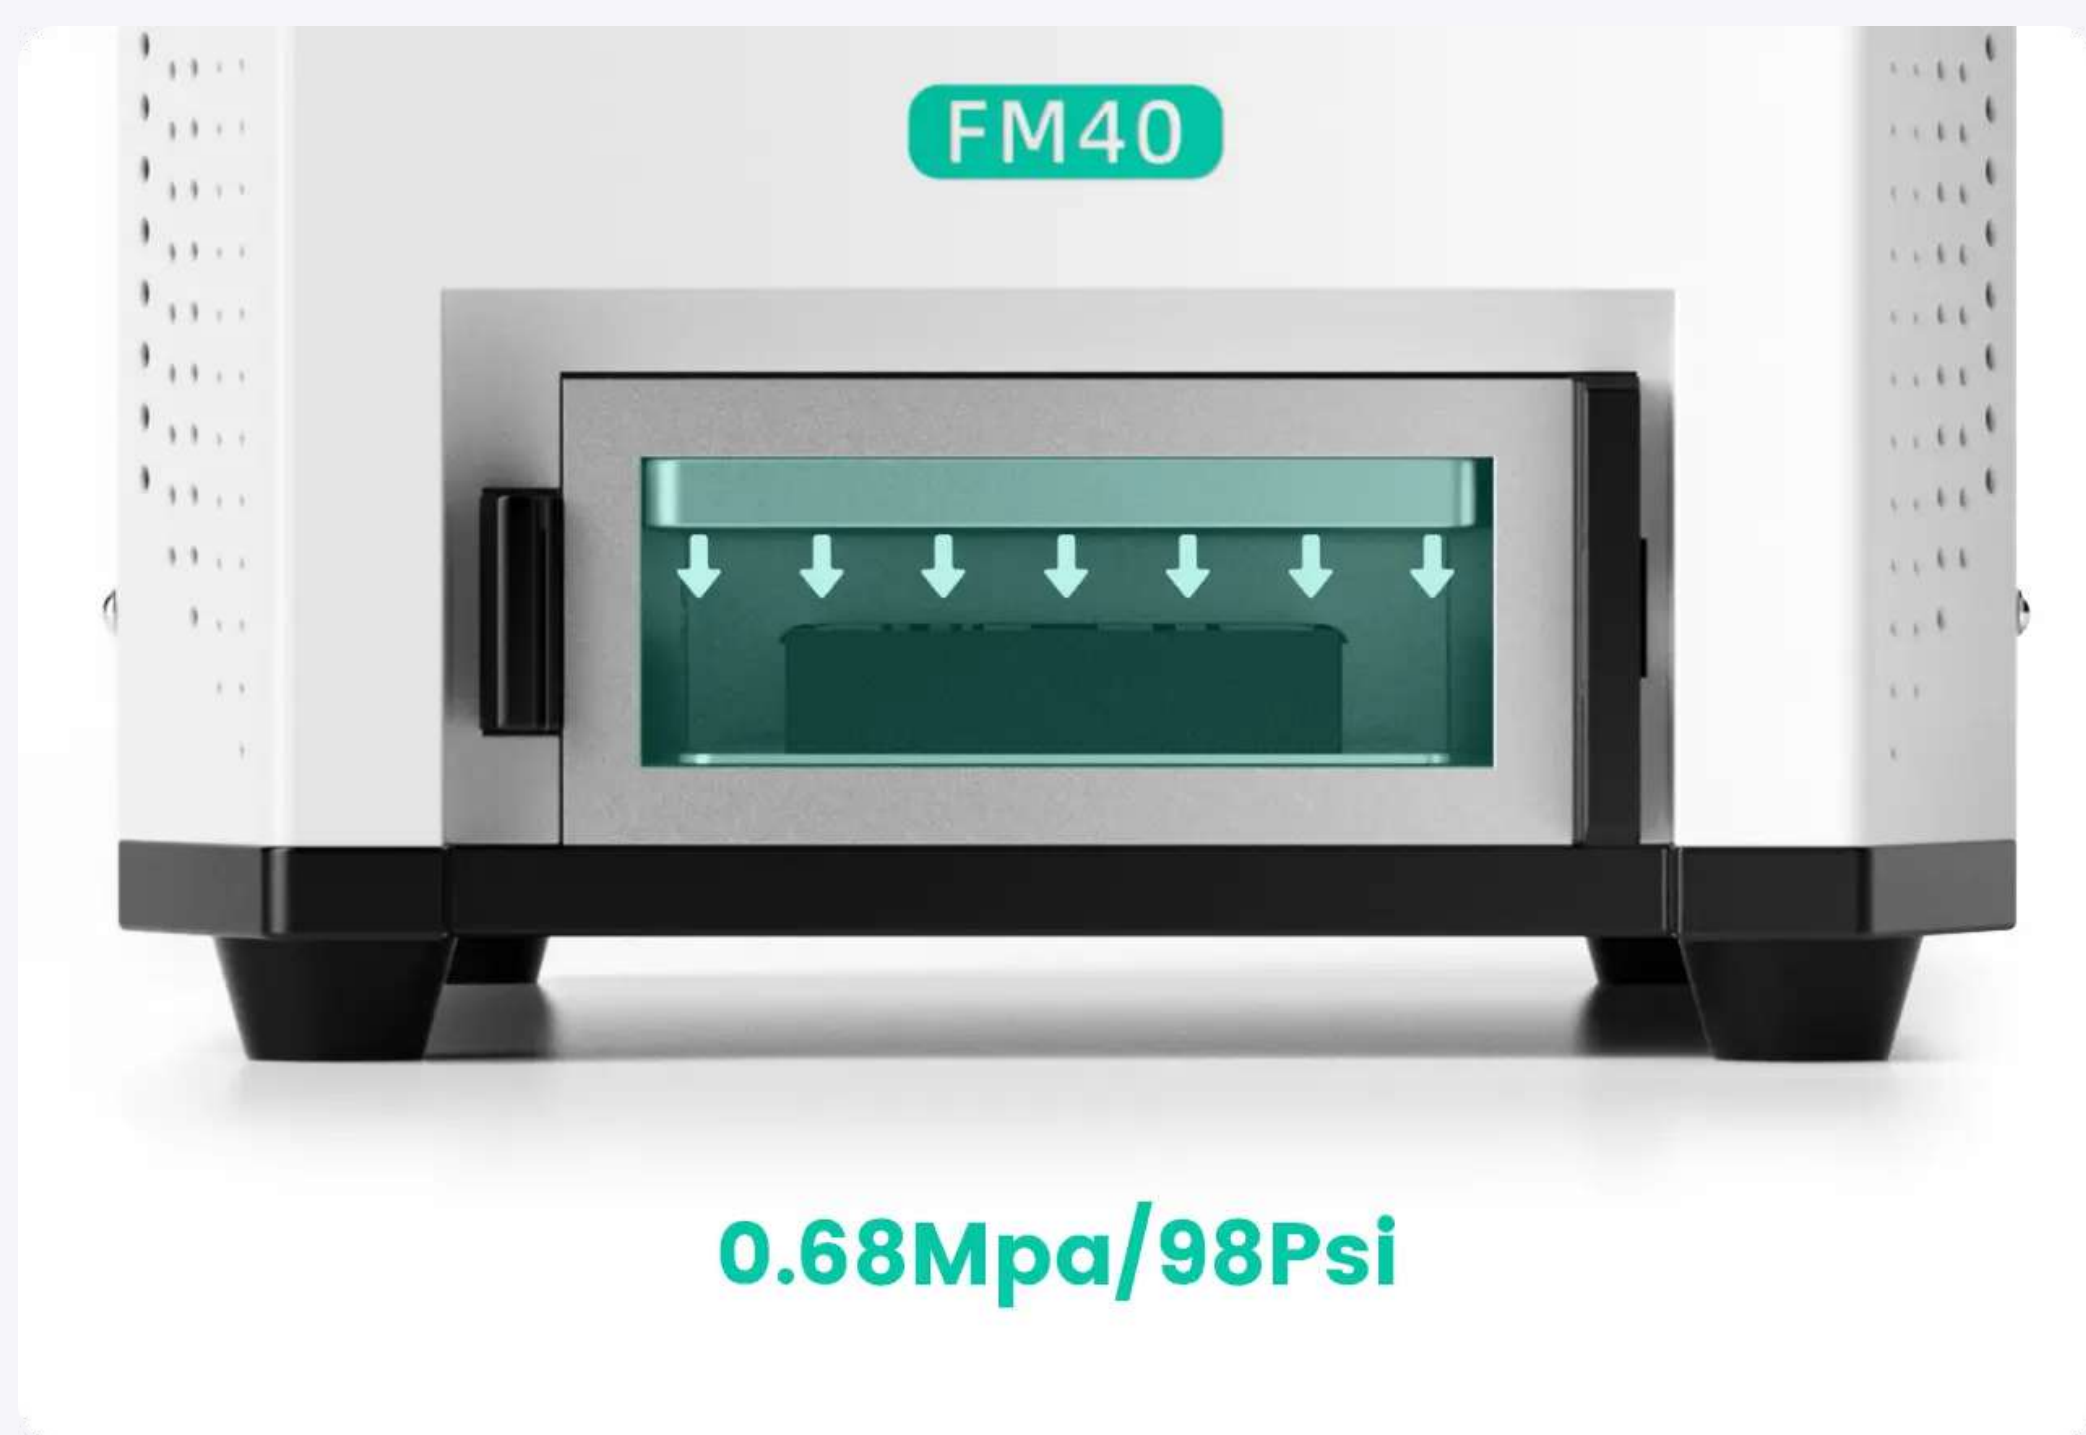

5-in-1 design, cost effective

Upgraded compatibility

Enhanced lamination capability
Max 0.68Mpa/98Psi

One-press lamination & bubble removal

Application

12.9-inch front glass separation

Device Model	Separation	Lamination	Bubble Removal
